

**According to the American Humane Association,
just 15% of lost dogs and 2% of lost cats ever
find their way back home.**

Every 4th and 5th of July we see a dramatic rise in lost pets.

More pets escape around this Holiday because of the stress and fear from the noise and commotion of Independence Day fireworks and festivities.

We would like to remind you that microchipping is a low-cost, safe and painless way to help ensure the best chance for a happy ending should your pet wander.
