

Human Foods

YOU SHOULD NEVER FEED YOUR PETS

Perilous Produce

- Avocados • Mushrooms
- Grapes and raisins – can cause kidney failure
- Fruits with pits – cherries, peaches, apricots
- Onions and garlic – can damage red blood cells, causing anemia
- Rhubarb

Dangerous Drinks

- Alcohol
- Coffee, tea, and other caffeinated beverages
- Milk and other dairy products – many pets are lactose-intolerant

Unsafe Sweets

- Chocolate - the darker, the more dangerous
- Xylitol – a sugar substitute found in gum, candy, and baked goods
- Peppermint

Hazardous Herbs and Spices

- Chives
- Leeks
- Nutmeg
- Cocoa powder
- Cinnamon

Sinister Snacks

- Nuts – especially macadamia nuts
- Salty foods – too many chips, popcorn or pretzels can lead to salt poisoning

Risky Raw Foods

- Eggs
- Fish
- Meat
- Yeast dough – rises and ferments in the stomach
